Tower of Babel Programming Experience Feedback

Hi! Thank you so much for participating in this survey! My team and I are working on a project for the Software Engineering Course here at NYUAD and we hope to implement a Learning Management System-based project to support the programming of the Tower of Babel SIG. We are currently gathering information to determine and design detailed functionalities of the software and would really appreciate any insights you could provide based your experience.

Thank you so much for your time! If you have any questions or concerns feel free to contact me at yh2371@nyu.edu

Best,

Yiming Huang
